Liberty Bank Enters Local Field

Bold Robbery Wednesday Morning At Local Hardware Store

Bride of Last March Seeks Divorce From Collegian Husband

THIEVES STEAL RIFLES FROM F. DUHRING'S

Broke Glass and Helped Themselves To Three Winchesters and Quantity of Ammunition.

Some time after 1 o'clock Thursday morning bold thieves broke one of the big plate glass windows of the Duhring Store and stole three rifles and a quantity of ammunition. The loot consisted of a nice display of firearms which Manager Rae Hunter had arranged prior to the opening of the deer season. A carbine rifle, a lightweight model 55 and matted rib shotgun were missing when the store was opened Thursday morning by the Duhring clerks. A jagged window pane revealed the mode of operation of the burglars, who evidently broke in to get the guns, for nothing else in the window or store was missing. The shattered plate glass was not heard to fall by anyone in the neighborhood, but Deputy Sheriff Ryan, who patrolled the streets until 1 a. m., fixes the time of the theft after that hour.

The officer believes an automobile ran up on the sidewalk, as has happened before at that corner and that the machine hit the window, breaking it. He believes the rifles were either taken by the driver of the car or by someone who came along later, saw the opportunity to reach through the broken glass, grab the guns and get away with them.

Manager Hunter's theory is that some one "fell" for the guns and broke the window in order to steal them.

The loss is about \$200.

ADVOCATE OPENING OF PATTON STREET

With the increased building and continual growth of Second Street East below Napa street, the residents of that pretty home district are advocating more direct access to the business district of Sonoma by the opening up of Patton street to First Street East. The opening up of this street would also make available many nice building lots in a very desirable section of town.

SONOMA TEACHERS ENJOY SEA TRIP

Misses Edna Cooper and Bertha Warthorst, popular school teachers, who left here on the "Venezuela" a number of weeks ago for a trip to New York via the Panama Canal and Havana, have arrived safely in the Atlantic port and report a delightful voyage. Neither of the young ladies were sea-sick, and enjoyed every minute aboard ship. They were charmed with Panama and encountered delightful weather there. At Havana they received their first letters from home.

The travelers will be a month longer on the trip, which will take them to every important point of interest between the Atlantic seaboard and the Northwest, including Niagara Falls.

False Teeth Got Away In The Tank

An excited lady guest at one of the summer resorts reported the loss of her false teeth to Constable John Mohr. She lost them in the swimming tank and wanted the obliging constable to find them for her. She explained that her molars, being unaccustomed to anything but a tumbler, got excited in the big tank and broke their moorings. They were later recovered by a small boy who brought them up on the plate and restored them to their owner. "Nothing like belonging to the smart set," says the lady, "these came back to me with little trouble."

WILLIAM BOSCH NEW N. S. G. W. PRESIDENT

At an enthusiastic and well attended meeting of the Native Sons Monday night, the new officers were installed and plans made for the participation of Sonoma Parlor, Native Sons and Daughters, in the parade during the diamond jubilee celebration in San Francisco September 9th. District Deputy Grand President Frank Berger installed the following corp of officers:

Fred Stuermer senior past president.
A. DeMartini, junior past president.
William Bosch, president.
Bert Kerner, first vice president.
L. Bosch, second vice president.
A. Bianchini, third vice president.
Tom Palmer, marshal.
Tony Barrachi, inside sentinel.
Victor Erlebach, outside sentinel.
L. H. Green, secretary.
Roy Pauli, treasurer.
George McGill, trustee.

The past president's emblem, a beautiful watch charm, was presented to the retiring president, Angelo De Martini, by J. F. Prestwood who complimented Mr. DeMartini on his record and voiced the appreciation of the Parlor for good and faithful work during his term of office.

Three hundred dollars was appropriated for Sonoma's participation in the great parade at San Francisco, when the history of our Golden State will be detailed through pageantry, beginning from the dim period of legend, up through the colorful days of '49. Sonoma Native Sons and Daughters will have a float depicting the lowering of the Bear Flag and the raising of the Stars and Stripes on the Sonoma Plaza, as that event was enacted in 1846. The local Parlor plan to have their own division in the parade and plan other features worthy of the historic importance of Sonoma in state history.

A PROHIBITION JAG

A comely woman, well dressed and repentant, was released from the Sonoma jail Tuesday morning after having spent the night there for being drunk and disorderly. The offender was taken into custody by Deputy Sheriff Ryan at the Springs where she had been creating a disturbance.

Captain and Mrs. Henderson of Sacramento have been guests at Crescent Acres, the Erasmus home.

San Francisco Organization Takes Over All Branches Of the Central Bank

The Liberty Bank of San Francisco has taken over the Sonoma branch of the Central Commercial and Savings Bank, together with the head bank of Power Company.

The Vallojo institution was headed by Albert Casper, who is also owner of the Central Commercial and Savings Bank, together with the head bank of Power Company. The Liberty Bank was organized a little over three years ago with a capital of \$1,000,000, with Marshall Hale, of San Francisco, as president. R. E. Miller is now head of the institution, which is reported to have 28,000 depositors, and deposits on June 30th amounting to \$6,833,746, according to a statement issued with the sale announcement.

The Central Commercial and Savings Bank purchased the Sonoma Valley Bank, pioneer local banking institution, about three years ago from and merged it making the announcement, said: "The Liberty Bank is delighted with its opportunity to extend its service to those of the purchased, the Liberes, and will offer the increased facilities of the Liberty Bank to the customers of these institutions." The transaction, which was not completed until late Thursday, was negotiated by George A. Webster, vice president of the Liberty Bank, Hale, of Hale Brothers, Inc.; R. E. Miller, president of the Owl-Drug supervision of the new branches.

The directors of the Liberty Bank are among San Francisco's most prominent citizens and include Marshall Hale, of Hale Brothers, Inc.; R. E. Miller, president of the Owl-Drug supervision of the new branches.

Rests On Hillside Of The Valley He Loved

All that was mortal of the late a prominent part in the growth of the Zeph Lane, prominent lumberman of cities of Spokane and Colville, at and Washington and orchardist of Sonoma, near which places he very successfully operated his lumber manufacturing plants.

In 1884, in North Dakota, Mr. Lane was married to Miss Elizabeth Bronson, and of this union two children were born, Miss Beth Lane, or So-noma, and Warren Bronson Lane, of Colville, Washington.

In seeking the best place to build a home and retire, Mr. Lane came to California about 11 years ago, and after looking over the state for an entire year, chose Sonoma Valley. He purchased the Engler farm west of Colville, town, planted it to orchard and there built a beautiful bungalow for himself and family. In Sonoma Valley he and his family won many friends and El Rancho Ideal was often the scene of pleasant social affairs, where the genial host, his wife and pretty young daughter hospitably entertained their guests.

Z. Lane was a man among men, and those often referred to as empire builders. He was constructive, enterprising and progressive. At the early age of 18, he and through square business dealings, started out to win success in Michigan and timber and lumbering interests, he led an active life. At the age of 21 he was in North Dakota, where he took up a homestead and farmed extensively. Ten years later Mr. Lane pushed farther West into the State of Washington and became a pioneer builder of that great timber country. In the development of the lumber business of Washington he was a recognized leader and took

part in the growth of the Zeph Lane, prominent lumberman of cities of Spokane and Colville, at and Washington and orchardist of Sonoma, near which places he very successfully operated his lumber manufacturing plants.

Warren Lane arrived from Colville last Sunday morning and will spend a month here with his mother and sister.

Receives Prized Souvenir Of A Historic Day

J. P. Serres, of the "Fighting Joe" Hooker ranch, Agua Caliente, has received a much prized souvenir of the recent barbecue given to the Native Sons on the day of the landmark ceremonial. The souvenir is the wooden plate on which all the celebrities at the feast wrote their names. This plate was taken to San Francisco by Historiographer Tracy of the N. S. G. W., and uniquely framed. A glass was put over the autographs and the plate framed in a polychrome frame with a crest of the five flags which once claimed the territory of old.

VERNA QUARTAROLI GREEN ASKS FOR LEGAL SEPARATION

Marriage to Harold Green, Berkeley Student, a Mistake, She Alleges. Cruelty Is Charged.

In a complaint filed this week at Santa Rosa, Verna Quartaroli Green, bride of last March, charges her husband, Harold Green, with cruelty and excessive drinking, and asks that she be granted a divorce from the college student.

The young couple were married by Rev. S. E. Crowe one evening at the Sonoma parsonage, after they had secured a marriage license during a romantic trip after midnight to the office of the county clerk. They first planned to elope, but finally decided on the quiet ceremony here.

Bride and groom took up their residence at the home of the bride's sister on Spain street, but within two days, so the pretty little wife avers, discord entered the door and love flew out of the window. The college boy husband left home and after an absence of 12 days, returned in an intoxicated condition, cursed and struck his bride. Mrs. Green then decided that married life was not what it had been painted and consulted her attorney, Wallace Ware, of Santa Rosa, who has started proceedings.

Green, defendant in the divorce action, is the son of a well known family of Southern California and is a law student. The complainant is the youngest daughter of Mr. and Mrs. L. Quartaroli, pioneer retired hotel people of Sonoma.

SEEK NEW HIGHWAY TO THE STATE HOME

Construction of a new road connecting the Sonoma State Home with the Schellville-Santa Rosa highway will be asked of the State Highway Commission soon, it was stated recently by Walter Wagner, State Superintendent of Institutions, after making an inspection of the home at Eldridge.

The highway will be about three-quarters of a mile long and will run across the state lands, so that much of the labor can be done by inmates and attendants of the institution Wagner said. It will open a new entrance to the home grounds.

AUTOS COLLIDE AND MISS SCHELL INJURED

Saturday night the collision of the cars of Ken Weaver, well known Sonoma lumberman, and Nevada and Fred Schell, of Schellville, resulted in painful injuries to Miss Schell and her brother. The accident happened on Broadway near the L. H. Green home. Mistaken signals and the turning of one of the cars to the wrong side of the road caused the accident.

Miss Schell, pretty and talented daughter of the well known poultryman, received several cuts on the face from broken glass and her brother received a gash on his forehead. The Schells were driving their Ford coupe.

Mr. Weaver, in his Dodge roadster was unhurt.

This is the largest fat woman yet registered in the summer resort district, and a bathing suit her size could not be found. Witnessed Opening Of Giant Power Plant

125 Foot Dam raises river level. Water flows thru a 19 foot tunnel 21,230 feet to Power House.

Pit No. 3 Power House. Installed capacity 108,000 horsepower.

A delegation of Sonoma county newspaper men were among the 350 or 400 who witnessed the opening of Pit No. 3, the fourth unit of the Pacific Gas and Electric Company's \$100,000,000 Pitt River project in Shasta county, last Saturday afternoon. It was an impressive occasion. The power plant is the largest so far constructed by the company and cost \$17,000,000.

As Miss Bernice Downing, Santa Clara newspaper woman, turned the switch which released the water into the big turbine, the greatest enthusiasm prevailed, the representative visitors present evincing their realization of this great public service achievement

and what it means to the State of California.

Everyone was greatly impressed with the project and the organization which builded it, the loyalty and pride of every employee being evident in the work.

Pit River plant No. 3 is the fourth of seven plants to be completed by 1935 at a cost of \$100,000,000. Hat Creek No. 1 and No. 2 and Pit No. 1 and No. 3 power houses are now in operation.

These plants include generating units which are the largest in the United States and the second largest in the world.

Power generated by these plants is carried 202 miles over the world's highest voltage line to the Vaca-Dixon sub-station

for regulation and distribution.

Cost of the Pit River development to date is approximately \$35,000,000. The adding of the Pit No. 3 plant will increase P. G. and E.'s system kilowatt hour output about 23 per cent. The total installed capacity of the Pit River development is now 236,000 horsepower, or 44 per cent of the total hydro-electric capacity of the company's system. Pit No. 3 plant was completed in 23 months.

The largest synchronous condenser in the world has been installed at the Vaca-Dixon sub-station to regulate the voltage and to decrease line losses. Energy is transmitted at 220,000 volts.

MORE NEW HIGHWAY FOR THE VALLEY

More paved highway for Sonoma Valley is good news. Supervisor Fred Lowell is to be commended for his successful effort to get the Vineburg road completed. Not only will this County highway bring more traffic from the State highway into our Valley of the Moon, but it will be a great service to our local people and will make for better business between Sonoma City and the farmers of the eastern part of the Valley.

There is talk of a new piece of State highway to lead from the present main highway above Madrone across the Valley to the State Home. Let us boost for this new lateral also. Sonoma Valley is coming to the fore with better roads, which are the key to future success.

THREATS AGAINST OUR GRAPE GROWERS

It may be re-assuring to Sonoma Valley vineyardists and land owners to read what E. M. Sheehan, of the Grape Growers' Exchange, has to say in regard to the rumored prohibition of wine grape shipments. Mr. Sheehan cannot believe that the Government would put a ban on this crop, believing that it would stop the making of home fruit juice with a "kick," for even the wholesome apple makes the finest kind of apple wine, white wine, or hard cider. So why should the grape be singled out as an offender? Mr. Sheehan points this out and could have mentioned many other things besides dandelion, rhubarb and elderberries. Why, the lowly potato peelings and peach pits may be tossed together and with Nature taking its course, the result is high-powered hooch. The only way that alcohol can be kept from man, and man would not stop home brewing, for it is admitted that wine can be made from table and raisin grapes. "If we admit that all grapes are juice grapes and if the spirit that prompts this discussion is one which has to do with correcting violations of the law in the manufacture of products out of the grape and which means the manufacture of unlawful use in the home."

its source," says the prohibitionists.

"Every now and then one of our readers hears some disconcerting rumor that an attempt is to be made to stop the shipment of juice grapes and writes to know if we think such a thing can and will be done. Our reply invariably is that there is no telling what 'can' be done, but we do not believe the government, in its desire to enforce the prohibition law, will molest the juice grape growers of California or interfere with the shipment of their grapes.

"Recently a leading California agricultural journal published a statement that juice grapes were to be barred from the Kansas City market this fall. We investigated and corresponded with several Kansas City firms that specialize in 'juice grapes' and were told in each case there was absolutely no foundation for such a story."

Mr. Sheehan goes on to point out that in very few cases have authorities tried to stop the sale of wine grapes and making wine for their own use.

"These practices," he says, "are not to read what E. M. Sheehan, of the zealous prohibition officials who are trying to hide their inability to get the big bootlegger. In a desire to show they are on the job and working, they have pounced upon harmless home brewers, who are not the kind of people the Volstead Act is trying to reach."

Then Sheehan tries to show why the grape growers have no real cause for fear. Reducing the question to one of absurdity, he asserts:

"Why, if the government tried to apprehend every individual who is making home beverages for his own use, it would take more than one-half of our population to watch the rest. As one writer has wisely said, prohibiting the use of 'wine grapes' would not stop home brewing, for it is admitted that wine can be made from table and raisin grapes.

"If we admit that all grapes are juice grapes and if the spirit that prompts this discussion is one which has to do with correcting violations of the law in the manufacture of products out of the grape and which means the manufacture of unlawful use in the home."

wine in unlawful places, we must immediately ask ourselves how we shall undertake to correct an unlawful practice at the source. The logical theory must be in that event that any material susceptible of conversion into an unlawful alcoholic drink must be prohibited in sale and transportation. When we reach this point in our logic, almost the whole agricultural production of the State of California and elsewhere swims before our eyes in a mass of uncertainty.

"Would there be no violations of law in the production of liquor of alcoholic content if all grapes and all the raisins were destroyed?

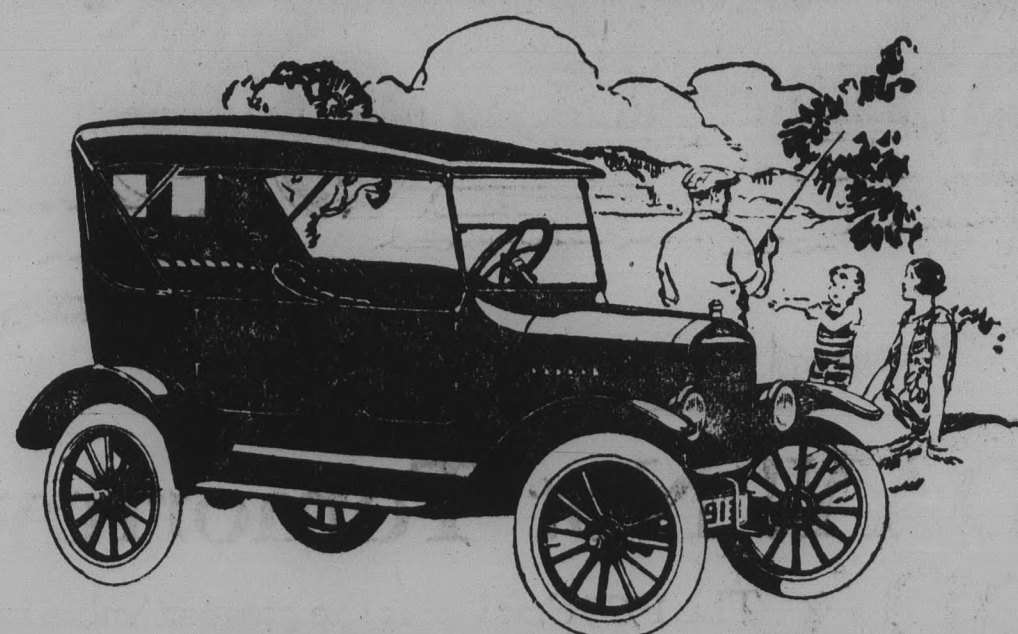

"Would evasions of the Constitution be nil if apples were no longer harvested and a certain amount of cider production destroyed?

"Would not the bootlegger and the home brew manufacturer then turn for his source of material to canned fruits and dried fruits—peaches, figs, apricots, prunes and many others out of which liquor of alcoholic content may readily be made?

"And finally, how about corn, barley and the great grain crops of the United States which for many years helped produce the high powered liquors in distilleries of the country?

"And we may ply ourselves with innumerable questions of this sort, and then go even further to the thought that if the proper logic in coping with crime and law violation is the destruction of production at the source we must follow that theory to a conclusion so far reaching that rhubarb, elderberries and dandelions must go.

"And centuries of effort have failed to stamp out the dandelion. "No, we do not think the government intends to molest the grape grower, but we do believe the authorities are going to heed President Coolidge's recent appeals for law enforcement and use every effort to apprehend the real law breakers, and by that we mean the bootleggers, who sell illicit liquor—principally the deadly moonshine—and not the individuals who grow grapes or make 'fruit juices' in their own homes and for their own entire vacation.

Off The Beaten Path

The real charm of touring lies in leaving the main-travelled highways and exploring the thousands of alluring side-paths. These dirt roads and trails lead to spots of rare beauty unvisited by the throng—where better camp-sites may be found—finer fishing and lovelier scenery. In a Ford car, you can enjoy the thrill

of exploration and discovery. It is the one satisfactory means of travel for these narrow roads—light—yet so powerful that it will bring you through—easy to handle—sturdy and economical.

It will carry the whole family and the saving in cost often pays for the entire vacation.

MODEL MAN ASKS FOR DIVORCE AFTER 30 YEARS

After trying 30 years to be a model, home loving husband, Henry Scholl formerly of Sonoma, a mill hand at Scotia, found this his efforts were not appreciated, he says in a divorce complaint filed in the superior court in Eureka.

In his complaint Scholl says that he loves his home life and has never taken an interest in dancing and similar amusements, but has during working hours devoted himself to his labor and has desired to enjoy his home life in the evening, and that he has always lived a temperate life. In return for his home loving efforts the plaintiff says he was told by his wife "to be like other men, get out and get drunk and give her a chance to go to parties and other places which she enjoys," adding that he "had his nose in the stove all the time and was a nuisance about home."

On one occasion his wife threatened to use a pistol he says and he was compelled to take the weapon from her.

Scholl asks the dissolution of marriage ties and for a division of community property in Sonoma county valued at \$4000.

What to do when a Light goes out

If the trouble is with a single Lamp, it may be due either to a broken filament in the Lamp or to a defective Socket.

Often a Lamp with a broken filament can be temporarily restored to service by tapping it lightly. It is well to try another Lamp in the same Socket. Also try the "dead" Lamp in a different Socket. These tests will determine whether the fault is with the Lamp or the Socket.

If the trouble is in the Socket it is better to send for an electrician than to try to make the repair yourself.

REAL ESTATE ACTIVE IN HIGHLANDS TRACT

Messrs. Carter and Samuel report the sale of several more lots in the Sonoma Highlands Tract, at Boyes Springs. Purchasers this week include Messrs. Bride, Sutliff, Carcass, Offermann and Daly. Besides these five sales, the Wagner property where Tom McMann conducts his store, has been sold to John Kuken of San Francisco. Mr. McMann's lease, which runs to 1929, will not be disturbed.

The sale of lots in Boyes Springs recently by W. W. Carter and George Samuel has converted more of this property into cash than has been the record for several years past, so the owners state.

NARROWLY ESCAPES DEATH AT CROSSING

Struck at the Schellville crossing by the San Francisco bound S. P. train from Santa Rosa at about 7:30 o'clock last Saturday morning, a truck driven by Carl Jackle, prominent and well known Napa millman, was turned over and thrown upside down along the railway tracks.

Jackle, squeezed down in the bottom of the truck cab, was carried with the vehicle, but emerged from the wreckage unscratched.

The Napa man was bound for San Rafael with a load of oak cabinets. Upon approaching the crossing, he stated he did not hear the train whistle, nor did he see the train until it was nearly upon him. It was too late to stop, and the locomotive hit the rear wheels of the truck. The accident was witnessed by two San Mateo men in a truck immediately behind Jackle.

The train was said to have been traveling at a fast rate of speed and went quite a ways before it could be brought to a standstill.

The cabinets in the truck were all smashed to pieces and the truck itself was extensively damaged.

K. C. PICNIC AT GLEN ELLEN

The picnic, carnival and athletic contest held at Glen Ellen on Sunday by the North of Bay Councils of the Knights of Columbus, was one of the most successful events ever held by that organization. The Hotel Merwyn was thrown open to the members and a very delightful day was spent.

Swimming, boating and a basket lunch were enjoyed. Athletic contests were of a very interesting nature and Santa Rosa Council carried away the honors, making a total of 47 points; Petaluma, second, with 30 points to its credit, and San Rafael, third, making 22 points.

The Council winning the silver cup which was the prize offered, will have to make the most number of points three times to retain possession.

More than 700 were it attendance and the get together picnic was productive of much good, both socially and financially.

Rev. J. F. Byrne of Sonoma celebrated mass under the trees, the services preceding the festivities of the day and being largely attended.

NAPA FORMS BIG MOSQUITO DISTRICT

As a result of a vote passed unanimously by the Napa county Board of Supervisors Monday, officials of the Board of Health will co-operate in the organization of the Napa County Mosquito Abatement District which was organized last week.

According to L. G. Lenert, sanitary engineer of the State health body, the new abatement district is to be the largest of its kind in the United States. The district, which is No. 18 in California, covers an area of 783 square miles, embracing all of Napa county.

NOTED PIONEER TO CELEBRATE BIRTHDAY

An interesting event occurred yesterday (Friday) when John Tyler Grigsby, one of the oldest pioneers in California, celebrated his eightieth birthday with his son, Henry, at their home at Yountville.

John Tyler, a son of the pioneer Captain John Grigsby, is probably the oldest living Native Son of California, having been born in Sonoma county in July, 1845. He was born in an ox wagon in the settlement to which his father and mother had come with a few other Argonauts.

His mother supplied the red flannel used in making the Bear Flag, which was raised at Sonoma in June, 1846. It was the flag of the California Republic for half a year.

Captain John Grigsby, his wife, and John Tyler, the son, came to Napa county in 1847, and the son still enjoys good health.

The birthday was celebrated at Yountville by relatives of the aged pioneer.—Napa Register.

PETALUMA WILL GET BIG SUGAR FACTORY

At a recent meeting of the Chamber of Commerce a representative of the Northwestern Sugar Refining Company, which was present at the meeting, stated that Petaluma will be the site of a sugar factory if growers of the section will produce sufficient beets to make the venture worth while.

After a thorough survey of the county within a radius of 25 miles of Petaluma the sugar men have assured themselves that sugar beets can be successfully produced, and the company is ready to invest in the installation of a modern refinery if growers agree to raise beets, it was stated.

The sugar men ask that they be guaranteed the planting of 6000 acres of sugar beets next year. If this assurance is given, they stated, construction of the plant will begin on October 1st.

SONOMA TEACHER WRITES OF TRIP TO YOSEMITE

Miss Florence Murphy, Sonoma teacher, has returned from Yosemite and writes of her trip as follows:

"I left San Francisco on the S. P. Tuesday morning, July 7th, for the Yosemite Valley. From Port Costa on down the San Joaquin Valley the country was all new to me, and I was interested in looking at this rich interior valley as the train sped along. At this season of the year it is generally warm and the sun glares on the yellow grain fields. But there are orchards and vineyards, fields of corn and canteloupes, and great stretches of alfalfa in all stages of its growth. The wide concrete irrigating ditches play a great part in the development of this rich country.

"Arrived at Merced we left the main line, had lunch and boarded the little Yosemite Valley train. For some time we crossed hot, brown fields where droves of Holstein cattle were feeding. Soon after we crossed the Merced River we passed Snelling, formerly the county seat of Merced county. In 1855 it was an important stop on the stage line from Sacramento to Los Angeles. It was the center of the gold mining activities in this part of the state. It represents a picturesque appearance from the car windows, several large red brick buildings still standing among the fine old trees. One of these, I believe, was the old court house.

"Soon the train began to climb. We were entering the valley of the Merced River. At Merced Falls the Yosemite Lumber Company operates a large saw mill. We met a long train of flat cars loaded with huge sugar pine logs, all held in place by strong chains.

"Next we passed scenes of the gold rush in the early fifties. Little declivities on the side hills were still visible where men had washed gold 75 years ago. Each ditch represented a claim. A roofless stone building, perhaps 20 feet square, on the right, still keeps its steel windows and doors and was the first bank in California, marking the site of the town of Barrett.

"Farther up the river the hills began to close in on both sides. Here at Exchequer, a great dam is being built to confine the waters of the Merced River. The water stored will be used to irrigate the dry, grassy plain between Snelling and Merced.

"The walls of the canyon had now risen high on either side of us and soon we came to El Portal, the gateway of Yosemite Valley. Here open motor stages met us and carried us over the 15 miles to Yosemite Lodge or Camp Curry, as the traveler elected. It was 6 o'clock, the sun had long since set in the valley, and the ride was through the cool, dim twilight. It was such a relief to eyes tired from the dazzling sun of the San Joaquin Valley. We passed the Bridal Veil Falls, El Capitan, Elephant Rock, Cathedral Spires, Sentinel Rock, Yosemite Falls and other points of interest made familiar by pictures and descriptions of Yosemite Valley. No picture or descriptive word, however, can quite prepare one for the beauty and grandeur of the scenes in this small area of wonderland.

Camp Curry was a lively place as we drove into the Center. Arrival and departure of guests always mark a busy time, and the dinner hour also added to the crowd. Just inside the rustic gateway are two buildings on the right and three on the left, which make up the Camp Curry Center. The post office and transportation office are housed in the first building, and just beyond is the main business office.

"Over on the left are the store, studio and main dining room. Farther back of these are the cafeteria, refrigerating and storage plants, bath houses, swimming pool, and living quarters for employees.

"After registering and getting my dinner, I claimed my baggage and was taken to my tent. The tents are furnished with large grass rug, clean, comfortable beds, dresser and a wash stand.

(Continued Next Week)

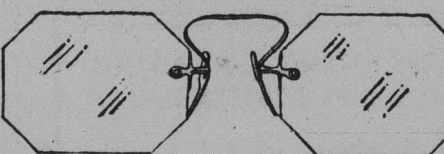

DECLARE SONOMA CO., NOT YOSEMITE, BEST

Misses Pagani and Wirtz, who, accompanied by Mrs. Louis Picetti, went to the Yosemite, had a hard luck trip and encountered stormy weather, including thunder and lightning in the mountains. They returned Saturday, disappointed, and betook themselves to the Russian River for a real vacation.

The Pagani party started to go to the Yosemite via the Tioga Pass but found it closed for repairs. They were forced to return and go in the regular road during the hottest weather. Then came the storm, which included hail and rain. They found the Yosemite very uninviting in the throes of this temperamental weather and decided to return to their beloved Sonoma county, the vacationers' real paradise.

City Clerk and Mrs. Hartley W. Gottenberg and Mr. and Mrs. James Tate are home from a delightful vacation spent in Mendocino and Humboldt counties. They caught plenty of fish, both brook trout and deep sea fish, and altogether had a fine outing. They returned by way of Garberville.

Jack Mascerini of San Francisco spent the week end with his family, which is vacationing here. Mascerini 20 years ago accompanied Harry Tenny, now deceased, at that time out for championship honors in the bantamweight division, to Sonoma, where before the Sonoma Athletic Club he fought a draw with Jimmie Carroll, at Weyl's hall. The fight was a good one and old timers will remember the battle. Tenny later met his death in the prize ring in San Francisco.

F. Scaler and friends of San Francisco are enjoying a two weeks' vacation at Parente's Tavern.

Mrs. F. Hadley, formerly Miss Mann, of Sonoma Valley, has been a guest at the Griffith home on Riverside Drive. Mrs. Hadley now resides in San Francisco.

J. J. VIGNA'S CAR SAVED FROM FIRE

Monday morning J. J. Vigna was driving his Chevrolet down from the Loveall Valley when he smelled rubber burning. He stopped the car and opened up the left side of the hood. But the fire was on the other side. Stepping quickly over, he lifted the hood and instantly the flames shot up three feet into the air.

Mr. Vigna grabbed a can of Richmond Dry chemical fire extinguisher, and threw a small handful of the powder at the base of the fire, putting it out at once. The fire had started from a short circuit, and soon would have destroyed the car but for the prompt use of the chemical.

C. C. Champlin has refilled the canister for Mr. Vigna, in case of any future need.
